White Birch Vacation Day Camp visiting the Tucker Free Library are joined by Erin Longan, Children & Youth Librarian (far left) and Betha Gutsche, OCLC (far right) for a group photo after an hour of learning through play.

White Birch & Tucker program

Two of Henniker's best offer combined vacation program

The White Birch Vacation Day Camp came to the Tucker Free Library during April Vacation Week. The kids had fun showing Betha Gutsche, representative of OCLC, our new Playground for the Mind!

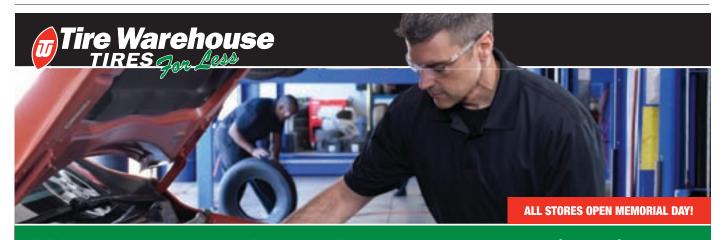

Tucker Free Library was one of 15 libraries in the nation to receive a \$5100.00 grant to create a community engagement space. Recognizing that children learn literacy skills through talking, singing, reading, writing, and play, the library used the funds from this grant to create TFL KIDSpace.

This innovative space provides families with children a chance to learn to solve problems, work together, and negotiate decisions covertly through play. Families are welcome to use any of the STEAM oriented toys when the library is open. The hours of operation of the Tucker Free Library are: Tuesday-Thursday 10-8, Friday-Sunday 12-5. For more information contact tuckerfree@comcast.net or call 428-3471.

Henniker discusses Sewer and Transfer Station fees

The Henniker Select Board has undertaken a major review of several ordinances, policies and regulations. During Tuesday's meeting the Board held a 1st reading on the Wastewater Ordinance with emphasis on the proposed sewer deduction meters. The Board, acting as sewer commissioners, will hold another meeting at 6 p.m. on May 22nd to determine

what effect the 2nd meters will have on flow and thus the sewer rates. Also were the 1st readings for the Energy Committee's Mission Statement, Parking and Traffic regulations, Solid Waste Disposal and Transfer Station fees. The next meeting could be lengthy as all these items were passed through for 2nd readings and possible adoption at that time.

Hillsboro-Deering High School DECA recently returned from the international competition in Atlanta, Georgia with several accolades. The group attended the conference from April 20 – April 25, 2018 and during this event two teams made their way into the finals of their respective competitions and finished in the top eight out of over 3000 teams in each competitive event.

This year H-D had two Virtual Business Sports Management teams qualify for the finals. The team of Nicholas Lester, Thomas Ferguson, and Ethan Blevins finished in 4th place internationally in an event that saw them do well through several rounds of competition. The team of Gunner Hagstrom, Nate McGillicuddy, and Max Costello competed hard and finished just outside of medal contention in 11th place.

Similarly, H-D's Virtual Business Restaurant Management team of Zoe Galatas and Miranda Feighery finished in 7th place internationally in their event. The Restaurant competition was also heavily competed in this season with over 3000 teams from around the globe participating.

H-D also qualified a Virtual Business Retail Management team. The team of Dustin Vancleave, Zachary Urban, and Caitlin Greene made their way to the semifinals and finished in 12th place.

It was announced that the combined competitors in all of the DECA Virtual Business events was 43,000 students this season with only the top 200 students making the finals. This means that HD students were in the top 0.5%.

During the School Based Enterprise Academy, freshmen Alexis McClure and Kaylea Davison were awarded the Gold Certified School Based Enterprise Award on behalf of the Hillcat Corner, the chapter's school based enterprise. This is the eleventh consecutive year that the chapter has received this award.

Rounding out the team of twenty-five qualified students from Hillsboro-Deering were: seniors Colby Wilkens and Kianna Carter (Travel and Tourism Marketing), juniors Joshua Marshall (Human Resources Management), Austin Gallagher (Automotive Services Marketing), Louis Nordlund (Ignite Academy) and Kimberly Rodier

(Public Relations, Empower Academy); sophomore Emma Breed (Public Relations); and freshmen Rachel VanOlmen (Startup Business Plan), Serena Havunen (Entrepreneurship Promotion Project), Cassidy Marshall and Chloe Braun (Creative Marketing Project), and Bailey Adams (Thrive Academy).

When the team had time – they visited Lake Lanier to go Ziplining, attended DECA Night at Pemberton Place – which includes the Georgia Aquarium and the World of Coca-Cola.

Weare woman charged with robbery and assault

Police say Amanda Bailey-Roberge, 32, of Weare concealed clothes and was attempting to walk out of Kohl's department store with a television Saturday when an employee confronted her at the entrance.

Bailey-Roberge tripped the employee and struck the worker several times before getting away.

Police issued a statewide alert. Londonderry Police stopped her heading south on Interstate 93 where she and Joseph Hanright, 28, of Allens-town, were taken into custody.

Hanright was with Bailey-Roberge earlier Saturday during a theft at Bed Bath & Beyond shortly before the Kohl's incident. Bailey-Roberge also had a nobail arrest warrant for possession of drugs and was being held at Merrimack County jail. Hanright was charged with organized retail crime and willful concealment and also taken to jail, police said.

Vitamin D deficiency in expectant mothers during pregnancy has a negative effect on the social development and motor skills of pre-school age children, a new study in the British Journal of Nutrition reports.

A new study in *JAMA Surgery* analyzed more than 200,000 opioid-naive individuals who had undergone one of eight common surgical procedures between 2006 and 2014 and were subsequently prescribed opioid pain medication. Every day, more than 90 Americans die after overdosing on opioids, accord-

ing to the National Institute on Drug Abuse. Misuse of and addiction to opioids has become a public health crisis with more than 2 million Americans suffereing from substance abuse issues related to prescription opioid pain medication. While over-prescription of pain medications has been implicated as a driver of this growing opioid epidemic, few guidelines exist on how to appropriately prescribe opioid pain medication following surgery with the goal of balancing pain with risk of addiction. Using a nationally representative sample of people who were opiate naive undergoing common procedures, researchers found that median prescription length for the first-time prescriptions was four to seven days, and that the number of people who required a refill of their opiate prescription varied from 11.3 percent to 39.3 percent depending on the type of procedure performed. The duration of the prescription also varied depending on the category of procedure, from nine days for general surgery to 15 days for musculoskeletal procedures. While seven days may be more than adequate for many patients undergoing common general surgery and gynecological procedures, prescription length limits may need to be extended to 10 days, recognizing that as many as 40 percent of patients may still require a refill at a seven-day limit for pain management, particularly following many orthopedic and neurosurgical procedures.

Do You Dare to Compare?

A vibrant, active Chamber of Commerce serves as a vital support for its member businesses and as major booster of a town's image and well being. Holding annual meetings where members can express their views, make suggestions, and elect their officers and director keeps an organization fresh and in contact with

its members and the town as a whole.

Conversely, without annual meetings and open elections, any organization becomes stale, loses focus, and fails its members and the community.

Below is a comparison of two Chambers. You be the judge of which one is succeeding.

Letters to the Editor

To the Editor:

The Education Savings Account bill (SB193) will soon move to the entire NH House for a vote. This bill provides state support for parents and students who choose an alternative to their local public school. I urge you to contact your representatives today and ask them to vote in favor of the bill.

Parents and guardians have a greater incentive than anyone else to choose how to educate their sons and daughters in the most effective way possible. That could be through public schools, charter schools, private schools or home schools. By giving parents the right, but not the obligation, to choose an alternative to their local public-school system, SB193 puts the emphasis on people--i.e. students--over educational infrastructure. This bill assumes, very reasonably, that parents will make the right choices for their children.

The state of New Hampshire has an obligation to support educational opportunity and achievement of every child in the Granite State. The state's share of the total cost of education--the state Adequacy Grant—should be earmarked to follow those students. State funds should be used to support each child's

education, not the administrative and operational expenses of any particular provider of that education.

Timothy J. Lord, Hancock

To The Editor:

I do not read the Messenger. The publication has a knack for ginning up unnecessary controversy rather than acting as a journalistic service for the public good. Last week's 'article' regarding the Deering Fire Department is a good example.

The Messenger's practice of lifting and manipulating Selectmen's meeting minutes, adding a salacious headline, and not attributing the 'article' to an author was used last week in an effort to drive a wedge between the Board and the Fire Department. Further, the 'article' was placed in the Letters to the Editor section, heavily implying it was provided directly to the Messenger by someone involved with the Town to print as-is.

The Messenger's actions, unnecessarily though understandably, deeply upset many of our outstanding Fire and Rescue team members. While I choose not to engage with the type of silliness displayed in the ▶

Messenger's 'article' last week, I want to emphatically state neither any employee of the town nor either Selectmen had anything to do with the Messenger's 'article.'

What I want our employees and volunteers to know, as well as all who choose to live in Deering or visit us during the year, is we have a wonderful group of dedicated people in our Fire & Rescue squad. The Board of Selectmen supports them and their mission with dedicated town resources and with our time and effort. They've earned it. I'm not going to allow the Messenger to interfere with our increased level of service thanks to Chief Gorman's recently enacted per-diem service, where our response times have dramatically improved, our reliance on neighboring communities EMS services has all but evaporated, and our ability to respond to all calls has demonstrably increased. That's great for Deering, and that's because we have wonderful people.

In the future, should the Messenger decide to begin practicing good journalistic standards, our Selectmen, Town Administrator or Department Heads can be contacted to better understand things you 'may be hearing.' In the meantime, please stop trying to sell more ads by driving people apart.

Aaron Gill, Chairman, Board of Selectmen Town of Deering

Dear Aaron:

Sorry that you took offense. Rather than counter your attacks on our accuracy, reprinted below are the entire April 4th minutes dealing with your critique of the Department. It does not appear that The Messenger "CREATED" any controversy. The Messenger has always, and will always continue to support the gallant efforts of our First Responders.

Deering Select Board Minutes April 4, 2017

"Fire Department – Skid Pack Bid Mr. Gill noted that Chief Gorman had provided two bids for the skid pack, but a third was provided by Assistant Chief Doug Connor. Mr. Gill explained that the bid sent by Mr. Connor was not in the agenda packet because no one knew if the Fire Chief had authorized the bid. Mr. Gill further explained that the same thing happened at town meeting where Mr. Connor brought a new quote for the cost of a skid pack that was dated late February. Ostensibly, the Fire Chief knew nothing about the new pricing. There was ample time to bring the new cost data to a Board of Selectmen's meeting before Town Meeting. That was not done and that was the responsibility of the Fire Chief. The new cost for the skid pack would have easily been approved by the Board and presented by them at Town Meeting. Because the process was not followed it took over an hour at Town Meeting. Mr. Gill reminded Messers Gorman and Connor that numerous people at Town Meeting voiced frustration with the Fire Department for not following the budget process. Many of the process and transparency issues associated with the budget are discussed at the weekly staff meetings with the Town Administrator that the Board has directed all department heads to attend. The new cost data needed to be discussed or at least come to light during a weekly staff meeting. It did not because the Fire Chief failed to attend. There are processes in place for a reason. The TA explained that working outside the budget process is disrespectful to the budget advisory committee volunteers who review, question, and recommend the annual budget to the Board of Selectmen. It leaves volunteers won-

dering if they have wasted their time. The process insures transparency and accountability. Operating outside of the process leaves people feeling distrustful. Chief Gorman admitted that it was on him and that he should have brought the issue to the Board. Uninspected Forestry Vehicle Mr. Gill addressed the issue of the fire department forestry vehicle being driven by the Chief and department personnel since September 2017 without an inspection sticker as required by law. It was even driven to the Town Meeting without an inspection sticker. This is unacceptable and the vehicle cannot be driven until it passes inspection. It simply creates a problem for the town. No explanation of why it was driven was offered. The Chief noted that it will get inspected as soon as possible. BOS Meeting Minutes Page: 2 Respectfully submitted by: Russell McAllister Finally, Mr. Gill reminded department personnel that the TA represents the Board of Selectmen and acts on their behalf during normal day to day operations. Department heads report to the TA. When the TA asks for information or provides guidance and direction he is doing so at the behest of the Board. Both Messers Gill and Belouin noted their support for the fire department. It's why the Board had asked to fund a study of the department, hire a fire chief, and implement a per diem program. They have also asked for and received funding for the current skid pack and next year the Board is requesting funding for a new tanker truck. Teamwork and collaboration make for a more efficient and responsive organization and that is what the Board has promoted over the course of their tenure."

Volunteers needed at LRGHealthcare

Have you ever considered sharing your time and talents as a volunteer? Volunteers are people of diverse ages and from various walks of life. They enjoy being of service, helping others and meeting new friends. They are a valuable part of our hospital and truly make a difference. LRGHealthcare offers several different areas where volunteers may serve in the hospital and currently has over 185 dedicated volunteers. "We are always seeking new volunteers at both our Laconia and Franklin campuses" said Sandy Marshall, Director of Community Relations. "Currently, we have volunteer opportunities for Golf Cart Shuttle Drivers, Guest Services, Patient Rounder's, Gift Shop Associates, and other openings." Volunteer hours are flexible; we'll work with you to create a schedule that works for both of us. We work carefully with our volunteers to match their interests and talents with the needs that exist throughout the hospital. Ready to share your time? Bomb scare evacuates Hillsboro-Deering

Hillsboro-Deering High School students returned to classes on Monday only to be evacuated to the Middle School because of another bomb scare. Authorities do not believe this one is related to an earlier event this year.

A note was found warning that a bomb was in the building, which prompted a full response by local and state police who did a complete search of the facility. Authorities would neither confirm nor deny that the suspect has been identified.

Young Concord man died in Bow accident
