## Herb Frederick - Rest In Peace

*A loving, devoted patriarch; his family and his community meant the world to him*

Herb Frederick, a Hillsboro icon, with a gruff exterior and heart of gold, died on July 19, 2023, just shy of his 93rd birthday. In 1968, Herb moved to Deering

with his family and resided there until moving to Hillsboro in 2005.

In the early 70s he started working at New England College before becoming one of the original founders of the Valley Home Center in the mid-70s. He was the founder of the Hillsboro Mini-Storage, and the developer of Central Street Condominiums. Herb was a lifetime member of the Hillsboro Lions Club as well as a past president and a Melvin Jones Fellow.

He is best remembered for his long-time Chairmanship of the Lion's Henry

G. Martin Scholarship Fund.

Under his leadership the fund grew from its modest beginnings to over \$150,000, which continues to provide scholarships to H-D graduates. Herb was recognized by The Masons as a Community Builder in the Hillsboro-Deering area. Prior to moving away from the Hillsboro area Herb was also very active with Saint Mary's Parish in Hillsboro and a member of the Knights of Columbus. See his obituary on page 17.

# Today's Seniors - A Special Generation

We, Seniors.....

We grew up in the 40s-50s-60s. We studied in the 50s-60s-70s. We dated in the 50s-60s-70s. We got married and discovered the world in the 60s-70s-80s. We ventured into the 70s-80s. We stabilized in the 90s. We got wiser in the 2000s. And went firmly through the 2010s.

Turns out we've lived through NINE different decades. TWO different centuries. TWO different millennia.

We have gone from the telephone with an operator for long-distance calls to video calls to anywhere in the world. We have gone from slides to YouTube, from vinyl records to online music, from hand-written letters to email and WhatsApp.

From live matches on the radio, to black and white TV, and then to HDTV...

We went to Blockbuster and

now we watch Netflix...

We got to know the first computers, punch cards, diskettes and now we have gigabytes and megabytes in hand on our cell phones or iPads...

We wore shorts throughout our childhood and then long pants, oxfords, Bermuda shorts, etc.

We dodged Polio, meningitis, H1N1 flu and now COVID-19.

We rode skates, tricycles, invented cars, bicycles, mopeds, gasoline & diesel cars and now we drive hybrids or electric vehicles.

Yes, we've been through a lot but what a great life we've had!

They could describe us as "exennials," people who were born in that world of the fifties, who had an analog childhood and a digital adulthood.

Our generation has literally lived through and witnessed

more than any other in every dimension of life. It is our generation that has literally adapted to "CHANGE." A big round of applause to all the members of a very special generation, which are UNIQUE. Here's a precious and very true message that I received from a friend:

**TIME DOES NOT STOP.**

Life is a task that we do ourselves every day. When you look... it's already six in the afternoon; when you look... it's already Friday; with another look.....the month is over; when one looks again ... the year is over; when one looks still again... 50, 60, 70 and 80 years have passed! Do not stop doing something you like due

to lack of time. Do not stop having someone by your side, because your children will soon not be yours, and you will have to do something with that remaining time, where the only thing that we are going to miss will be the space that can only be enjoyed with the usual friends. Precious time that, unfortunately, never returns.

Congratulations to Lakes Region Art Association's Artists of the Month for July 2023! Back Row Standing Left to Right: Jim Cryan, Sally Hibberd, Russell Schundler; Front Row Seated Left To Right: Martha Aucoin, Terry Calder, Barbara McClintock.

# Bradford citizens brainstorm the possible uses of the Town Hall renovation

A group of residents gathered Monday evening in the Bradford Area Community Center to brainstorm the variety of uses for the second floor of the soon to be completed renovations and restoration of the historic Town Hall.

Town Administrator Karen Hambleton outlined the progress completed so far: The painting is continuing to move along. The flooring in the second-floor meeting room has been sanded and refinished,

and looks amazing. The tree work had to be postponed due to the threat of storms but has been done. The sprinkler has now been installed.

The Board agreed that it's more cost effective to install tin ceiling on the first-floor meeting room now for \$11,000, as opposed to later, and approved the expenditure.

Hambleton reported that about \$16,000 remains in a 2020 warrant article account that was specified for Town

Building Maintenance and Repair.

Discussion then turned to the multiple uses of the second floor, which has a capacity of about 300 people in standing room only. Suggestions in-

cluded forums, family events, movies, plays, art show, talent shows, exhibitions and weddings. The consensus seemed to be that the first step is to prioritize potential uses, by checking with other towns

who have had similar projects. There would be a need for a group or building manager to oversee the operation.

The evening ended with the group excited and motivated by the possibilities.

Renovations are nearly complete at Bradford's historic town hall.

# Valiant efforts by Newbury & New London responders fail to save Lake Sunapee swimmer

On Saturday afternoon Newbury Boat 1, Rescue 1, Engine 4, Newbury Police, New London Ambulance, New Hampshire State Police and New Hampshire State Police Marine Patrol responded to a home on Lake Sunapee for a report of a swimmer in trouble.

Upon arrival of the first responders the individual had

been pulled from the water onto a swim raft and CPR was in process. Newbury fire and police personnel went out to the raft and assisted with CPR. Newbury Boat 1 arrived on scene and transported the individual from the raft to a private dock where New London Ambulance paramedics from two ambulances continued CPR and administered

medications.

The responders then moved the individual from the dock to the waiting

ambulance. The person was transported by ambulance to the hospital emergency room where the medical staff

took over patient care. The hospital reported later in the day that, unfortunately, the patient had passed away.

Rescuers unable to save the swimmer.

# Bennington man uninjured in Frankestown rollover

On July 25, Frankestown Police received a report of a single motor vehicle collision in the area of 2nd New Hampshire Turnpike. It was also reported that the vehicle had rolled over and no injuries were reported. Upon arrival, it was confirmed there were no injuries.

At that time the roadway

was detoured.

The investigation into the collision indicated that the operator, one James Renshaw, 60, of Bennington was operating a 1991 Mack 10-wheeler dump truck westbound on 2nd New Hampshire Turnpike.

Further investigation indicated that the vehicle gradually

drifted to the right, into the soft gravel shoulder area, where it came to a stop and rolled onto

the right side before coming to a final rest. The operator was able to get out of the vehicle.

The roadway was detoured for several hours until the vehicle could be removed.

Former New Jersey Gov. Chris Christie addressed New Hampshire voters at a New London town hall Tuesday night, blasting former President Donald Trump's character. "An out-of-control egomaniac lost to someone who had never beaten anybody outside the state of Delaware," Christie said.

Newbury Rescue and Newbury Police responded to a rolled over car in a ditch on Meadow Road at 10:30 Saturday evening. The driver, who was the sole occupant of the car, was out of the vehicle upon arrival and was not injured. The car had to be towed away.

## Robert Howard Law Office Henniker, New Hampshire

I have enjoyed my practice in Henniker and the surrounding towns for many years. Lately, I have been focusing my efforts to maintain an office practice, such as real estate issues, estate planning and administration. I have been referring more complex matters to other firms for some years, such as criminal matters, divorces, and injury recoveries.

Alfano Law Office is a firm with offices in several towns and cities, including Concord. They have accepted my request to name them as "Of Counsel" to my practice, so that my clients can benefit from their expertise, if they choose. I receive no financial benefit for these referrals, but can be comfortable that my clients will be in good hands for matters requiring more work than I am willing to attempt. That being said, I hope to be available to my many clients for a long time.

## Grasmere Schoolhouse added to NH Historic Register

The New Hampshire Division of Historical Resources has announced that the State Historical Resources Council has added a Goffstown property to the New Hampshire State Register of Historic Places.

Grasmere Schoolhouse #9 and Town Hall was built in 1889 to serve the needs of the local school district, the town of Goffstown and several community organizations

in Goffstown Center, which was later named Grasmere.

The Queen Anne style structure's impressive entrance and tower made clear the building's importance to the community.

Changed little since its last renovation in 1911, it still has two school rooms in the lower story and an auditorium on the second floor.

## Town of Deering receives eleven Fire Chief applications

Deering Town Administrator Peter Flynn informed the Select Board that he met Monday with the hiring team and reviewed the 11 applications for the chief's position and chose five for interviews. The date of interviews will be set up for the week after next. Assistant Chief Connor has a couple of interested recruits for EMS. TA Flynn provided wages for three local towns.

Chair Smith asked Flynn to follow up with the Fire Department to get their input on wages and said he would like to hear how the department currently sets wages. Selectman Diers agreed he would like to have someone from the Fire Department explain it. Flynn also reported that a new ambulance was brought to Deering to show the department. He attended as well as other

department employees and other towns. Selectman Watson said they should be more competitive and increase coverage but wait for the new Fire Chief.

Chair Smith asked if the conversation should be started now. Selectman Watson recommended making sure the Fire Chief candidates know that the Board is looking for someone to come in with knowledge and suggestions.

TA Flynn asked about the status of the Board allowing the raises for the Fire Department from their budget. Chair Smith answered that they were given a total figure and need more information to understand it. Flynn said he would work with them to set amounts of increases with the budget amount.

## Francestown Treasurer & Recreation Director resigns

Francestown Recreation Commission Director Meagen Kerris informed the Select Board that she has continuing concerns over the last six months about the RecCom and asked that a member of the Select Board join the RecCom indefinitely. Her concerns include: Budget/use of funds, Guidelines of operation & 91A, Municipal commission vs. committee, and RecCom volunteers fronting money for events.

The Board responded that a member of the BOS will not join the RecCom at present, but they are willing to assist the RecCom with questions and concerns as issues

arise. The RecCom can come before the BOS at future meetings to resolve issues and answer questions. RecCom expenses paid by volunteers was discussed and RecCom is to work with Mr. Pike regarding this.

Kerris then submitted her letters of resignation from both the Recreation Director and Town Treasurer positions, effective September 30, 2023, citing personal commitments.

The Board regrettably accepted Ms. Kerris' resignations and thanked her for her service and dedication to the town in her positions.

The annual New Hampshire Crafts Fair began on Saturday, August 5 and runs through Sunday, August 13, at Mount Sunapee Resort in Newbury.

## Weare Historical Society hosts Old Home Day August 12

Tom Flaherty, Vice President of the Weare Historical Society met with the Select Board to discuss Old Home Day. There are going to be two segments, the traditional Old Home Day is going to be around the Stone Building Library. It will be held Saturday, August 12 from 10 a.m. to 2 p.m. There will be food provided by the Sons of the Legion this year. The Boy Scouts and Girl Scouts will have desserts and drinks. There will be demos such as a blacksmith, woodcutting and hewing, a bounce house for children, and a vendor fair. They will have a raffle of items from the vendors. The museum will be open and merchandise sales from the Historical Society.

John Knox will bring his menagerie of classic cars and run them alongside the middle school. There will be handicapped parking in front of the Legion. The last

segment of Old Home Day will be the last Village Play. This year the play will be outside with a stage and PA System set up. They are encouraging people to come out to Center Park with blankets or lawn chairs to the performance. First performance will be on August 11th at 6 p.m. and two performances during the day on August 12th. There is unlimited capacity because it will be outside. There are going to be portapotties available to individuals attending.

Selectman Burdick asked where they would hold the play if it rains. Mr. Flaherty said the backup plan would be to hold the play at the Middle School. There will be limited food offerings on Friday night during the play. If it rains on Saturday, they will at least have gotten the one performance in.

## Deering Select Board says “Show me the money”

Deering Select Board Chair Jill Smith announced that both Town Administrator Peter Flynn and Finance Administrator Meagen Kerris have successfully completed their 6-month probationary period, and the Board approved pay increases, retroactive to July 1st: the Town Administrator’s salary from \$84,000 to \$89,000 per the Employment Agreement. The Finance Administrator’s

wage from \$30/hour to \$32.05/hour (\$60,000) per agreement at the time of hire. The Board also approved the following increases, retroactive to July 1st, for Officer Ancil from \$20/hour to \$25.20/hour, and Officer Davy from \$21.30 to \$27/hour, Mark Poland from \$26.50 to \$27.46/hour, Darin Labier from \$24.00 to \$24.96/hour, and Kristin Bouchard from \$17.82 to \$18.54/hour.

## Newbury Select Board to interview Town Administrator candidates

Newbury Select Board Chair Joanne Lord discussed the Town Administrator-Search Committee, asking for clarification on the committee. Now that they have done their job and brought the candidates forward, it should be only the Select Board doing the second interview.

Scott Wheeler said the committee will stay as a committee until an administrator is hired but this interview

should just be the Board.

Kristin Schultz thought to have the others in but would have to think about it. Lord said their job was to screen them and bring them forward. She said they have done a great job and she thanked them.

The Board agreed that they will do the interview, just the three of them.

## TAKE YOUR MEDICINE

BY SARAH CHAPIN

In a study recently published in *Developmental Cell*, researchers explain how they identified the autophagy pathway in hair cells that’s linked to permanent hearing loss brought about by aminoglycosides — a class of antibiotics. The researchers also developed one of the first laboratory models that’s unsusceptible to aminoglycoside-induced hearing loss. Ototoxicity — hearing loss caused by medication — is one of the main causes of hearing loss in humans. More than 48 million people in the United States experience trouble hearing. Aminoglycosides for nearly a century have been used to treat severe infections. Although the drug is a first-line treatment for life-threatening infections — particularly in developing countries — due to their low cost and low incidence of antibiotic resistance, it has been reported to cause hair cell death and subsequent permanent hearing loss among 20-47% of patients, but the underlying mechanisms are not clear. Hair cells are responsible for sound reception in the inner ear.

The American Gastroenterological Association (AGA) has released new evidence-based guidelines strongly recommending that patients with obesity use recently approved medications paired with lifestyle changes. The following medications, paired with healthy eating and regular physical activity, are first-line medical options and result in moderate weight loss as noted as a percentage of body weight (reported as the difference compared to percent weight loss observed in the placebo group). Semaglutide (Wegovy®), weight loss percentage: 10.8%; Phentermine-topiramate ER (Qsymia®), weight loss percentage: 8.5%; Liraglutide (Saxenda®), weight loss percentage: 4.8%; Naltrexone-Bupropion ER (Contrave®), weight loss percentage: 3.0%. Using medications as an option to assist with weight loss can improve weight-related complications like joint pain, diabetes, fatty liver and hypertension. The prevalence of obesity in the United States has increased dramatically from 30.5% to 41.9% over the last twenty years.

## CONSEQUENCES OF A LOST TOOTH

Dr. Esin Narli

Q: What happens when you lose a tooth?

A: There are a number of ways to lose a tooth. A fall or some other type of accident can knock a tooth out, or a tooth may finally fall to decay or loosen and fall out because of periodontal, or gum, disease.

One of the dangers of a lost tooth is that it can start a domino effect in your mouth. In the normal healthy mouth, the closely packed teeth support one another. When there is a gap in that support system, over time the teeth near the gap will start to shift and loosen. So if you lose a tooth, for whatever reason, you should consult with a dentist immediately.

Your dentist may recommend a crown or a bridge. A crown would be fitted over the remaining portion of a tooth that was essentially, but not completely, lost. A bridge is an appliance that fills the space where a tooth is completely lost. You may also be a candidate for an implant, which involves putting a metal anchor directly into the jaw and, after a time, attaching a small post and artificial tooth to the anchor. Not everyone, however, is a candidate for an implant. You must have sufficient jawbone for the procedure to be successful.

If you are missing a tooth, or have loose teeth, talk with a dentist about your options. The best way to cut down the likelihood of being in that position, though, is to visit your dentist at least twice a year.

### Newbury recommends "Standard Power" as electricity provider

Mary Fuller from Newbury's Energy Committee gave the Select Board a presentation on community power that the energy committee has been researching.

The committee spoke to different towns who implemented community power. There were two companies brought forward, CPCNH and Standard Power. Fuller went through the likenesses and differences. Lord asked what the

cost is. Fuller said there is no initial cost; the resident who signs up to be part of the community power would have the 1/10% of each kilowatt hour added to their bill. The recommendation of the Energy Committee is to have a warrant article at the March 2024 town meeting.

The energy committee also recommends using Standard Power.

# New England College hires veteran football coach Kevin Kelly

Football is coming back to New England College in the fall of 2024 after a 50-year hiatus.

It's a big undertaking to build a team from the ground up, but this coach is no stranger to football. The man who will lead the Pilgrims is Kevin Kelly.

He has more than four decades of coaching experience, but it will be the first for staffing, building and recruiting an entire team.

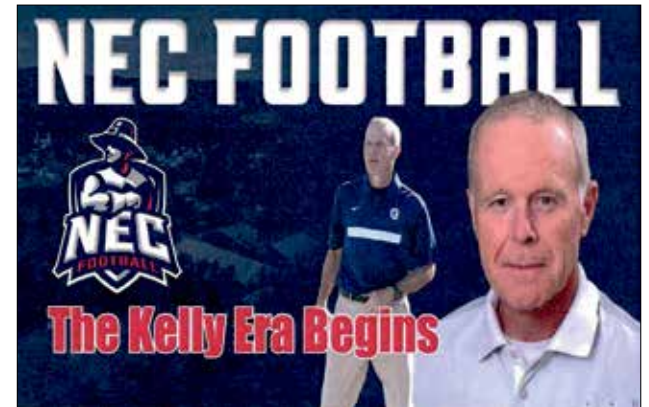

"This is the first and I know it's going to be challenging and rewarding but I'm ready to go to work," Kelly said. "It's going to be neat to build a legacy." That work starts now, about a year before New England College players will even hit the practice field for

the first time.

"The opportunity in our program is going to be different than a lot of Division III programs in New England in that when you come in initially, you're going to have a great opportunity to play," Kelly said.

Kelly has coached on every level of college football, plus the XFL. He spent the last two years at Salve Regina University, and most notably was the head coach at Georgetown University for eight seasons.

"We're going to have a football program that the administration, the alumni, the students and the Henniker community are going to be very, very proud of and we're going to have a lot of fun doing it," Kelly said.
